
VILLAGE BOARD MEETING**From:**

Chad Pelishek, Assistant Village Manager

VILLAGE OF HARRISON**Meeting Date:**

June 18, 2024

Title:

Proposed Amendment to Tax Incremental District No. 5- Village of Harrison

Report:

The Village is interested in amending the boundaries of TID 5 to include additional land along CTH N between Midway and Manitowoc Roads. The Village plans to purchase approximately 10 acres of land from the Luniak Meadows 2 developer for additional commercial development.

The project plan also includes bringing newly platted single family residential development to be known as Luniak Meadows 2 into the TID to generate increment to assist the Village in borrowing funds to extend infrastructure improvements to ready the property for commercial development.

More information on the pro-forma will be reviewed at the meeting by the Village's consultant Ehlers.

SECTION 1:

Executive Summary

DESCRIPTION OF DISTRICT

Tax Incremental District (“TID”) No. 5 (“District”) was a 40-acre Mixed Use District created on November 15, 2023. The District is located along the east side of County Road N north of Manitowoc Rd. The District was created to advance the Village’s vision to achieve well-planned, high quality growth, economic diversification, and development at a prominent location in the Village.

Purpose of Amendment

The purpose of this amendment, referred to hereafter as the Plan, the Amendment, or the Plan Amendment, is to:

- Add territory to the District as permitted under Wis. Stat. § 66.1105(4)(h)2. Specifically, the Village will add two parcels to the District, totaling approximately 28 acres. Post-Amendment, the District will contain approximately 68 acres. This is the first of four permitted territory amendments available to the District.
- Amend the categories, locations or costs of project costs to be made as permitted under Wis. Stat. § 66.1105(4)(h)1. (“Project”). Specifically, the Village will add approximately \$4.5 million in total potential project costs to the Plan.

Estimated Total Project Cost Expenditures

The original project plan included approximately \$5 million of project costs for infrastructure, land acquisition, pedestrian facilities and development incentives. This amendment includes an addition of approximately \$4.5 million of projects costs for additional infrastructure, land acquisition and financing costs. The total project costs remaining is approximately \$9 million.

Incremental Valuation

The Village projects that new land and improvements value of approximately \$43.5 million occur within the District (original and amended boundary). Creation of this additional value will be made possible by the Project Costs made within the District. A table detailing assumptions as to the development timing and associated values is included in the Economic Feasibility Study located within this Plan.

Expected Termination of District

Based on the Economic Feasibility Study located within Section 9 of this Plan, the Village anticipates that the District will generate sufficient tax increment to pay all Project Costs by 2037.

Summary of Findings

As required by Wis. Stat. § 66.1105, and as documented in this Plan and the exhibits contained and referenced herein, the following findings are made:

1. That “but for” the creation of this District, the development projected to occur as detailed in this Plan: 1) would not occur; or 2) would not occur in the manner, at the values, or within the timeframe desired by the Village. In reaching this determination, the Village has considered:
 - The substantial investment needed to provide the public infrastructure necessary to allow for development within the District. Absent the use of tax incremental financing, the Village is unable to fully fund this program of infrastructure improvements.
2. **The economic benefits of the District, as measured by increased employment, business and personal income, and property value, are sufficient to compensate for the cost of the improvements. In making this determination, the Village has considered the following information:**
 - Development within the District is likely to purchase goods and services from local suppliers and induced effects of employee households spending locally for goods and services from retailers, restaurants and service companies.
3. **The benefits of the proposal outweigh the anticipated tax increments to be paid by the owners of property in the overlying taxing jurisdictions.** As required by Wis. Stat. § 66.1105(4)(i)4., a calculation of the share of projected tax increments estimated to be paid by the owners of property in the overlying taxing jurisdictions has been prepared and can be found in this Plan. However, because the Project would not occur without the use of tax incremental financing, these tax increments would not be paid but for creation of the District. Accordingly, the Village finds that the benefits expected to be realized as set forth in this Plan outweigh the value of the tax increments to be invested in the Project.
4. Not less than 50% by area of the real property within the District, as amended, is suitable for mixed use development as defined by Wis. Stat. § 66.1105(2)(cm).

5. Based on the foregoing finding, the District remains designated as a mixed-use district.
6. The Project Costs relate directly to promoting mixed use development in the District, consistent with the purpose for which the District is created. Lands proposed for newly-platted residential development comprise no more than 35% of the real property area within the amended District. Costs related to newly-platted residential development may be incurred based on the proposed development having a density of at least three (3) units per acre as defined in Wis. Stat. § 66.1105(2)(f)3.a.
7. Improvements to be made in the District are likely to significantly enhance the value of substantially all of the other real property in the District.
8. The equalized value of taxable property within the territory to be added to the District, plus the incremental value of all existing tax incremental districts within the Village does not exceed 12% of the total equalized value of taxable property within the Village.
9. The Plan for the District is feasible and is in conformity with the Master Plan of the Village.
10. The Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period, pursuant to Wis. Stat. § 66.1105(5)(b).
11. That there are no parcels to be included within the District that were annexed by the Village within the preceding three-year period.

SECTION 2:

Preliminary Map of Original District Boundary and Territory to be Added

Maps found on following pages.

To the extent District boundaries include wetlands identified on a map prepared under Wis. Stat. § 23.32, the wetlands are excluded from the District. Map on page 8 shows the wetlands located within parcel 39138.

1) Estimated based on values as of January 1, 2023. Actual base value will be as of January 1, 2023.

2) Calculation based on aggregate assessment ratio of 73.01%.

SECTION 5: Equalized Value Test

The following calculations demonstrate that the Village expects to be in compliance with Wis. Stat. § 66.1105(4)(gm)4.c., which requires that the equalized value of the taxable property proposed to be added to the District, plus the value increment of all existing tax incremental districts, does not exceed 12% of the total equalized value of taxable property within the Village.

The equalized value of the increment of existing tax incremental districts within the Village, plus the value of the territory proposed to be added to the District, totals \$159,507,300. This value is less than the maximum of \$228,823,476 in equalized value that is permitted for the Village.

SECTION 6:

Statement Listing the Kind, Number and Location of All Proposed Public Works or Improvements Within the District

Project Costs are any expenditure made, estimated to be made, or monetary obligations incurred or estimated to be incurred as outlined in this Plan. Project Costs will be diminished by any income, special assessments or other revenues, including user fees or charges, other than tax increments, received or reasonably expected to be received in connection with the implementation of the Plan. If Project Costs incurred benefit territory outside the District, a proportionate share of the cost is not a Project Cost. Costs identified in this Plan are preliminary estimates made prior to design considerations and are subject to change after planning, design and construction is completed.

With all Project Costs, the costs of engineering, design, survey, inspection, materials, construction, restoring property to its original condition, apparatus necessary for public works, legal and other consultant fees, testing, environmental studies, permits, updating ordinances and plans, judgments or claims for damages and other expenses are included as Project Costs. The map found in Section 7 of this Plan along with the Detailed List of Project Costs found in Section 8 provide additional information as to the kind, number and location of potential Project Costs.

The "Statement of Kind, Number and Location of Proposed Public Works and Other Projects" set forth in the original District Project Plan approved on November 15, 2022 is amended to add the following Project Costs that the Village has made, expects to make, or may need to make, in conjunction with the implementation of the District's Plan or this Plan Amendment.

Property, Right-of-Way and Easement Acquisition

Property Acquisition for Development

To promote and facilitate development the Village may acquire property within the District. The cost of property acquired, and any costs associated with the transaction, are eligible Project Costs. Following acquisition, other Project Costs within the categories detailed in this Section may be incurred to make the property suitable for development. Any revenue received by the Village from the sale of property acquired pursuant to the execution of this Plan will be used to reduce the total project costs of the District. If total Project Costs incurred by the Village to acquire property and make it suitable for development exceed the revenues or other consideration received from the

sale or lease of that property, the net amount shall be considered “real property assembly costs” as defined in Wis. Stat. § 66.1105(2)(f)1.c., and subject to recovery as an eligible Project Cost.

Property Acquisition for Conservancy

To promote the objectives of this Plan, the Village may acquire property within the District that it will designate for conservancy. These conservancy objectives include: preserving historic resources or sensitive natural features; protection of scenic and historic views; maintaining habitat for wildlife; maintaining adequate open space; reduction of erosion and sedimentation by preserving existing vegetation; and providing adequate areas for management of stormwater. The cost of property acquired for conservancy, and any costs associated with the transaction, are eligible Project Costs.

Acquisition of Rights-of-Way

The Village may need to acquire property to allow for installation of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire rights-of-way are eligible Project Costs.

Acquisition of Easements

The Village may need to acquire temporary or permanent easements to allow for installation and maintenance of streets, driveways, sidewalks, utilities, stormwater management practices and other public infrastructure. Costs incurred by the Village to identify, negotiate and acquire easement rights are eligible Project Costs.

Relocation Costs

If relocation expenses are incurred in conjunction with the acquisition of property, those expenses are eligible Project Costs. These costs may include but are not limited to: preparation of a relocation plan; allocations of staff time; legal fees; publication of notices; obtaining appraisals; and payment of relocation benefits as required by Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

Site Preparation Activities

Environmental Audits and Remediation

If it becomes necessary to evaluate any land or improvement within the District, any cost incurred by the Village related to environmental audits, testing, and remediation are eligible Project Costs.

Demolition

To make sites suitable for development, the Village may incur costs related to demolition and removal of structures or other land improvements, to include abandonment of wells or other existing utility services.

Site Grading

Land within the District may require grading to make it suitable for development, to provide access, and to control stormwater runoff. The Village may need to remove and dispose of excess material, or bring in fill material to provide for proper site elevations. Expenses incurred by the Village for site grading are eligible Project Costs.

Utilities

Sanitary Sewer System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand sanitary sewer infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: collection mains; manholes and cleanouts; service laterals; force mains; interceptor sewers; pumping stations; lift stations; wastewater treatment facilities; and all related appurtenances. To the extent sanitary sewer projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand sanitary sewer infrastructure located outside of the District. That portion of the costs of sanitary sewer system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Water System Improvements

To allow development to occur, the Village may need to construct, alter, rebuild or expand water system infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: distribution mains; manholes and valves; hydrants; service laterals; pumping stations; wells; water treatment facilities; storage tanks and reservoirs; and all related appurtenances. To the extent water system projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the

implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand water system infrastructure located outside of the District. That portion of the costs of water system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Stormwater Management System Improvements

Development within the District will cause stormwater runoff. To manage this stormwater runoff, the Village may need to construct, alter, rebuild or expand stormwater management infrastructure within the District. Eligible Project Costs include, but are not limited to, construction, alteration, rebuilding or expansion of: stormwater collection mains; inlets, manholes and valves; service laterals; ditches; culvert pipes; box culverts; bridges; stabilization of stream and river banks; and infiltration, filtration and detention Best Management Practices (BMP's). To the extent stormwater management system projects undertaken within the District provide direct benefit to land outside of the District, the Village will make an allocation of costs based on such benefit. Those costs corresponding to the benefit allocated to land within the District, and necessitated by the implementation of the Project Plan, are eligible Project Costs. Implementation of the Project Plan may also require that the Village construct, alter, rebuild or expand stormwater management infrastructure located outside of the District. That portion of the costs of stormwater management system projects undertaken outside the District which are necessitated by the implementation of the Project Plan are eligible Project Costs.

Electric Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade electric services. Relocation may require abandonment and removal of existing poles or towers, installation of new poles or towers, or burying of overhead electric lines. Costs incurred by the Village to undertake this work are eligible Project Costs.

Gas Service

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade gas mains and services. Costs incurred by the Village to undertake this work are eligible Project Costs.

Communications Infrastructure

To create sites suitable for development, the Village may incur costs to provide, relocate or upgrade infrastructure required for voice and data communications, including, but not limited to: telephone lines, cable lines and fiber optic cable. Costs incurred by the Village to undertake this work are eligible Project Costs.

Streets and Streetscape

Street Improvements

To allow development to occur, the Village may need to construct or reconstruct streets, highways, alleys, access drives and parking areas. Eligible Project Costs include, but are not limited to: excavation; removal or placement of fill; construction of road base; asphalt or concrete paving or repaving; installation of curb and gutter; installation of sidewalks and bicycle lanes; installation of culverts, box culverts and bridges; rail crossings and signals; utility relocation, to include burying overhead utility lines; street lighting; installation of traffic control signage and traffic signals; pavement marking; right-of-way restoration; installation of retaining walls; and installation of fences, berms, and landscaping.

Streetscaping and Landscaping

To attract development consistent with the objectives of this Plan, the Village may install amenities to enhance development sites, rights-of-way and other public spaces. These amenities include but are not limited to: landscaping; lighting of streets, sidewalks, parking areas and public areas; installation of planters, benches, clocks, tree rings, trash receptacles and similar items; and installation of brick or other decorative walks, terraces and street crossings. These and any other similar amenities installed by the Village are eligible Project Costs.

Community Development

Cash Grants (Development Incentives)

The Village may enter into agreements with property owners, lessees, or developers of land located within the District for sharing costs to encourage the desired kind of improvements and assure tax base is generated sufficient to recover Project Costs. No cash grants will be provided until the Village executes a developer agreement with the recipient of the cash grant. Any payments of cash grants made by the Village are eligible Project Costs.

Revolving Loan/Grant Program (Development Incentives)

To encourage private development consistent with the objectives of this Plan, the Village, through its CDA (RDA), may provide loans or grants to eligible

property owners in the District. Eligible improvements will be those that are likely to improve the value of the property, enhance the visual appearance of the property and surrounding area, correct safety deficiencies, or as otherwise specified by the CDA (RDA) in the program manual. Any funds returned to the CDA (RDA) from the repayment of loans made are not considered revenues to the District and will not be used to offset District Project Costs. Instead, these funds may be placed into a revolving fund and will continue to be used for the program purposes stated above. Any funds provided to the CDA (RDA) for purposes of implementing this program are considered eligible Project Costs.

Miscellaneous

Rail Spur

To allow for development, the Village may incur costs for installation of a rail spur or other railway improvements to serve development sites located within the District.

Projects Outside the Tax Increment District

Pursuant to Wis. Stat. § 66.1105(2)(f)1.n, the Village may undertake projects within territory located within one-half mile of the boundary of the District provided that: 1) the project area is located within the Village's corporate boundaries; and 2) the projects are approved by the Joint Review Board. The cost of projects completed outside the District pursuant to this section are eligible project costs and may include any project cost that would otherwise be eligible if undertaken within the District. The Village does not intend to make project cost expenditures outside the District.

Professional Service and Organizational Costs

The costs of professional services rendered, and other costs incurred, in relation to the creation, administration and termination of the District, and the undertaking of the projects contained within this Plan, are eligible Project Costs. Professional services include but are not limited to: architectural; environmental; planning; engineering; legal; audit; financial; and the costs of informing the public with respect to the creation of the District and the implementation of the Plan.

Administrative Costs

The Village may charge to the District as eligible Project Costs reasonable allocations of administrative costs, including, but not limited to, employee salaries. Costs allocated will bear a direct connection to the time spent by Village employees relating to the implementation of the Plan.

Financing Costs

Interest expense, debt issuance expenses, redemption premiums, and any other fees and costs incurred in conjunction with obtaining financing for projects undertaken under this Plan are eligible Project Costs.

SECTION 7:

Map Showing Proposed Improvements and Uses Within the Territory to be Added

Map Found on Following Page.

The Village expects to pay development incentives to qualifying projects within the TID and will incur administrative and other professional services expenses in the implementation of the project plan.

Currently there are not half mile projects planned

SECTION 8:

Detailed List of Estimated Project Costs

The following list identifies the Project Costs that the Village has made, expects to make, or may need to make in conjunction with the implementation of the District's Plan or this Plan Amendment. All projects identified and related costs reflect the best estimates available as of the date of preparation of this Plan Amendment. All costs are preliminary estimates and may increase or decrease. Certain Project Costs listed may become unnecessary, and other Project Costs not currently identified may need to be made. (Section 6 details the general categories of eligible Project Costs). Changes in Project Cost totals or the types of Project Costs to be incurred will not require that this Plan be amended. This Plan is not meant to be a budget nor an appropriation of funds for specific Project Costs, but a framework within which to manage Project Costs.

1) The Village will retain the identified projects from the original Project Plan but does not have current plans to fund such project.					

SECTION 9:

Economic Feasibility Study, Description of the Methods of Financing Estimated Project Costs and the Time When Related Costs or Monetary Obligations are to be Incurred

This Section includes an updated forecast of the valuation increases expected within the District, the associated tax increment collections, a summary of how remaining Project Costs would be financed, and a projected cash flow demonstrating that the District remains economically feasible.

Key Assumptions

The Project Costs the Village plans to make are expected to create \$43.5 million in incremental value. Estimated valuations and timing for construction of the Project are included in **Table 1**. Assuming the Village's current equalized TID Interim tax rate of \$12.10 per thousand of equalized value with no economic appreciation or depreciation, the Project would generate \$8.8 million in incremental tax revenue over the 20-year term of the District as shown in **Table 2**.

Based on the Project Cost expenditures as included within the cash flow exhibit (**Table 3**), the District is projected to accumulate sufficient funds by the year 2037 to pay off all Project cost liabilities and obligations. The projected closure is based on the various assumptions noted in this Plan and will vary dependent on actual Project Costs incurred and the actual amount of tax increments collected.

Notes:

1) Estimated transfers to repay Village Governmental Funds par plus 5% interest (annual).

LEGEND:
CALULABLE MATURITIES
END OF EXP. PERIOD

SECTION 10:

Annexed Property

A tax incremental district cannot include annexed territory unless at least three years have elapsed since the annexation, or certain other requirements are met. None of the territory proposed to be added to the District was annexed during the past three years.

SECTION 11:

Estimate of Property to be Devoted to Retail Business

Pursuant to Wis. Stat. § 66.1105(5)(b), the Village estimates that less than 35% of the territory within the District will be devoted to retail business at the end of the District's maximum expenditure period.

SECTION 12:

Proposed Changes of Zoning Ordinances, Master Plan, Map, Building Codes and Village Ordinances

Zoning Ordinances

The proposed Plan Amendment is in general conformance with the Village's current zoning ordinances. Individual properties may require rezoning at the time of development.

Master (Comprehensive) Plan and Map

The proposed Plan Amendment is in general conformance with the Village's Comprehensive Plan identifying the area as appropriate for a Mix-Used development.

Building Codes and Ordinances

Development within the District will be required to conform to State Building Codes and will be subject to the Village's permitting and inspection procedures. The proposed Plan Amendment conforms to all relevant State and local ordinances, plans, and codes. No changes to the existing regulations are proposed or needed.

SECTION 13:

Statement of the Proposed Method for the Relocation of any Persons to be Displaced

Should the continued implementation of this Plan require relocation of individuals or business operations, relocations will be handled in compliance with Wis. Stat. Chapter 32 and Wis. Admin. Code ADM 92.

SECTION 14:

How Amendment of the Tax Incremental District Promotes the Orderly Development of the Village

This Plan Amendment promotes the orderly development of the Village by creating opportunities for mixed use development, providing necessary public infrastructure improvements, and providing appropriate financial incentives for private development projects. Through use of tax increment financing, the Village can attract new investment that results in increased tax base. Development will occur in an orderly fashion in accordance with approved plans so that the Projects will be compatible with adjacent land uses. Development of new uses in the District will add to the tax base and will generate positive secondary impacts in the community such as increased employment and additional housing opportunities within the Village.

SECTION 15:

List of Estimated Non-Project Costs

Non-project costs are public works projects which only partly benefit the District. Costs incurred that do not benefit the District may not be paid with tax increments. Examples of non-project costs are:

- A public improvement made within the District that also benefits property outside the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- A public improvement made outside the District that only partially benefits property within the District. That portion of the total Project Costs allocable to properties outside of the District would be a non-project cost.
- Projects undertaken within the District as part of the implementation of this Project Plan, the costs of which are paid fully or in part by impact fees, grants, special assessments, or revenues other than tax increments.

No improvements to be made within the District will benefit property outside the District. Furthermore, there will be no improvements made outside the District that will only partially benefit the District.

SECTION 16:
Legal Opinion Advising Whether the Plan is Complete
and Complies with Wis. Stat. § 66.1105(4)(f)

RE: Project Plan Amendment for Tax Incremental District No. 5

Dear Village President:

Wisconsin Statute 66.1105(4)(f) requires that a project plan for a tax incremental financing district include an opinion provided by the Village Attorney advising as to whether the plan is complete and complies with Wisconsin Statute 66.1105. As Village Attorney for the Village of Harrison, I have been asked to review the above-referenced project plan amendment for compliance with the applicable statutory requirements. Based upon my review, in my opinion, the amended Project Plan for the Village of Harrison Tax Incremental District No. 5 is complete and complies with the provisions of Wisconsin Statute 66.1105.

Sincerely,

Village Attorney

SECTION 17:

Calculation of the Share of Projected Tax Increments Estimated to be Paid by the Owners of Property in the Overlying Taxing Jurisdictions

The following projection is provided to meet the requirements of Wis. Stat. § 66.1105(4)(i)4.

Village of Harrison, Wisconsin Tax Increment District No. 5 Amendment Estimated portion of taxes that owners of taxable property in each taxing jurisdiction overlaying district would pay by jurisdiction.

RESOLUTION NO. PC 2024-01

**RESOLUTION APPROVING AN AMENDMENT TO THE PROJECT PLAN
AND BOUNDARIES OF TAX INCREMENTAL DISTRICT NO. 5**

WHEREAS, the Village of Harrison (the "Village") has determined that use of Tax Incremental Financing is required to promote development and redevelopment within the Village; and

WHEREAS, Tax Incremental District No. 5 (the "District") was created by the Village on November 15, 2022; and

WHEREAS, the Village now desires to amend the Project Plan of the District (the "Amendment") in accordance with the provisions of Wisconsin Statutes Section 66.1105 (the "Tax Increment Law"); and

WHEREAS, such Amendment will:

- a. Add territory from the District as permitted under Wisconsin Statutes Section 66.1105(4)(h)2.
- b. Amend the categories, locations, or costs of project costs to be made as permitted under Wisconsin Statutes Section 66.1105(4)(h)1.

WHEREAS, an amended Project Plan for the District (the "Amendment") has been prepared that includes:

- a. A statement listing of the kind, number and location of all proposed public works or improvements within the District, or to the extent provided in Wisconsin Statutes Sections 66.1105(2)(f)1.k. and 66.1105(2)(f)1.n., outside of the District;
- b. An economic feasibility study;
- c. A detailed list of estimated project costs;
- d. A description of the methods of financing all estimated project costs and the time when the related costs or monetary obligations are to be incurred;
- e. A map showing existing uses and conditions of real property in the District;
- f. A map showing proposed improvements and uses in the District;
- g. Proposed changes of zoning ordinances, master plan, map, building codes and Village ordinances;
- h. A list of estimated non-project costs;
- i. A statement of the proposed plan for relocation of any persons to be displaced;
- j. A statement indicating how the District promotes the orderly development of the Village;
- k. An opinion of the Village Attorney or of an attorney retained by the Village advising that the plan is complete and complies with Wisconsin Statutes Section 66.1105(4)(f); and

WHEREAS, prior to its publication, a copy of the notice of public hearing was sent to the chief executive officers of Calumet County, the Kimberly Area School District, and the Fox Valley Technical College District, and any other entities having the power to levy taxes on property located within the District, in accordance with the procedures specified in the Tax Increment Law; and

WHEREAS, in accordance with the procedures specified in the Tax Increment Law, the Plan Commission, on June 18, 2024 held a public hearing concerning the proposed amended boundaries of the

District and the proposed amendment to its Project Plan, providing interested parties a reasonable opportunity to express their views thereon.

NOW, THEREFORE, BE IT RESOLVED by the Plan Commission of the Village of Harrison that:

1. It recommends to the Village Board that the boundaries of Tax Incremental District No. 5 be amended with boundaries as designated in Exhibit A of this Resolution.
2. It approves and adopts the amended Project Plan for the District, attached as Exhibit B, and recommends its approval to the Village Board.
3. Amendment of the District's Project Plan and boundaries promotes orderly development in the Village.

Adopted this ____ day of _____, 2024.

PLAN COMMISSION MEETING

VILLAGE OF HARRISON**From:**

Josh Sherman, Assistant Planner

Meeting Date:

June 18, 2024

Title:

Zoning Map Amendment (Rezoning) –LouMar Properties, LLC – Kimberly Trl – Parcels 33408 & 33418

Issue:

Should the Plan Commission recommend approval of a zoning map amendment (rezoning) to the Village Board?

Background and Additional Information:

The applicant is proposing to rezone property located east of Southtowne Dr and west of Lilac Rd from General Agriculture [AG] to Single-Family Residential (Suburban) [RS-1]. The area of the rezone is wholly within parcels 33408 and 33418.

The purpose of the rezoning is to accommodate the Cedar View Subdivision preliminary plat, which consists of 12 new single-family residential lots. A separate memo for the preliminary plat is on the agenda.

The Comprehensive Plan and Future Land Use Map identifies this property as Single-Family Residential (sewered). The proposed rezoning is consistent with the Comprehensive Plan.

Findings of Fact:

- Staff finds that the Rezoning request complies with the Future Land Use Map as part of the Comprehensive Plan of the Village of Harrison.
- Property owners within 300-feet of the subject property have been notified via first-class mail.

Recommended Action:

Staff recommends approval of the Zoning Map Amendments from General Agriculture [AG] to Single-Family Residential (Suburban) [RS-1]. as submitted.

PLAN COMMISSION MEETING

VILLAGE OF HARRISON**From:**

Josh Sherman, Assistant Planner

Meeting Date:

June 18, 2024

Title:

Preliminary Plat – Cedar View Subdivision– LouMar Properties, LLC - Parcels 33408 & 33418

Issue:

Should the Plan Commission recommend approval of the Preliminary Plat of the Cedar View subdivision to the Village Board? The proposed single-family residential subdivision is located south of Manitowoc Rd and east of Southtowne Dr. The new subdivision would have access off of Kimberly Trl and would connect Kimberly Tr between Southtowne Place subdivision with Papermaker Ridge II subdivision. The area encompasses roughly 6.4 acres, all within parcels 33408 and 33418.

The area is zoned General Agriculture. The applicant has filed to rezone the area to Single-Family Residential (Suburban) [RS-1]. There are 12 residential lots and 1 Outlot that is located south of Kimberly Tril.

Lots average around 12,000 square feet with larger lots near the north end of Cedar Court, which ends in a cul-de-sac. All lots meet the minimum size of the proposed zoning district.

All roadways are proposed to be dedicated to the public at a width of 60-feet for the right-of-way, mirroring the neighboring subdivisions. Sewer and water will be extended through the subdivision. Preliminary plans and engineering are being reviewed.

The Village Board has approved a concept plan on February 27, 2024 similar to the proposed Preliminary Plat for Cedar View Subdivision

Recommended Action:

Staff recommends approval of the Preliminary Plat for Cedar View Subdivision with the following conditions:

1. The final plat, plans, and record drawings are subject to the review and recommendations of the Village of Harrison's engineer(s) of record.
2. Wetland permits shall be obtained from the WI Department of Natural Resources and submitted to the Village.
3. To provide a fee in lieu of parkland dedication for an amount determined as part of the developers agreement.
4. The developers agreement will be finalized before or in conjunction with the final plat.
5. All lots shall have a storm sewer lateral provided for sump pump discharge.
6. All review comments from the Village staff shall be included in the Plan Commission discussion and decision.

7. Erosion Control Silt Fence shall be installed, in accordance with State Specifications, along the right-of-way line of all streets prior to roadway acceptance.
8. A grading/drainage stormwater management plan and erosion control plan, along with application and fee, shall be reviewed and approved by the Village engineer and Village staff.
9. Final utility and street plans shall be reviewed and approved by the appropriate review authority prior to approval of the Final Plat and prior to utility and street construction.
10. Grading/Drainage Plan shall identify elevations of ground at the foundation.
11. All road names shall be approved by Calumet County E911.
12. Sidewalks, trails, street lighting, and laterals shall be indicated on the infrastructure plans.
13. There shall be notes to be added to the face of the final plat in accordance with Section 115-12(d)(1)(f).
14. The final plat and final grading/drainage plans shall include benchmarks for all fire hydrants. Benchmarks shall refer to hydrant tag bolts.
15. Plans shall be sent to the appropriate utility entities for review (ie phone, cable, gas/electric, sewer/water).
16. All easements shall be labeled with correct ownership and shall provide all benefits needed to the easement holder, including but not limited to access, maintenance, or other authority.

PLAN COMMISSION MEETING

VILLAGE OF HARRISON

From:

Josh Sherman, Assistant Planner

Meeting Date:

June 18, 2024

Title:

Certified Survey Map (CSM) – Kathy Johnson – N8801 Coop Road – Parcel 33588

Issue:

Should the Plan Commission recommend approval of the Certified Survey Map?

Background and Additional Information:

The applicant is proposing to split a parcel into 2-lots by a Certified Survey Map (CSM). The purpose of the CSM is to create a vacant residential parcel separated from an existing single-family lot.

The CSM would split 1.643 acres (Lot 1) from existing parcel 33588, reducing the size of the parent parcel (Lot 2) to 3.167 acres. On Lot 2 there is a house, garage, and barn.

The area is zoned General Agriculture [AG]. The future land use map lists the property as Single-Family Residential (sewered). The new lot has a width of 141.31 feet and does meet lot area and width requirements for potential residential rezoning.

There are established residential lots zoned Single-Family Residential [RS-1] directly east on Coop Road. The Kambura Acres subdivision is located southeast of the proposed parcel split.

Recommended Action:

Staff recommends approval of the Certified Survey Map (CSM) request as submitted.

CERTIFIED SURVEY MAP NO. _____

PART OF THE EAST 1/2 OF THE NORTHEAST 1/4 OF THE NORTHEAST 1/4 OF SECTION 16, TOWNSHIP 20 NORTH, RANGE 18 EAST, VILLAGE OF HARRISON, CALUMET COUNTY, WISCONSIN.

SHEET 2 OF 3

SURVEYOR'S CERTIFICATE:

I, Thomas M. Kromm, Wisconsin Professional Land Surveyor, certify that I have surveyed, divided, and mapped under the direction of Katie Johnson, a part of the East 1/2 of the Northeast 1/4 of the Northeast 1/4 of Section 16, Township 20 North, Range 18 East, Village of Harrison, Calumet County, Wisconsin, containing 5.063 Acres (220,571 square feet) of land and being further described as follows:

Commencing at the E 1/4 corner of said Section 16;

Thence North 00°45'08" East 1312.14 feet coincident with the East line of the NE 1/4 of said Section 16 to the point of beginning;

Thence North 89°42'37" West 655.37 feet coincident with the South line of the Northeast 1/4 of the Northeast 1/4 of said Section 16;

Thence North 00°40'30" East 339.10 feet;

Thence South 89°14'52" East 655.81 feet to the East line of the NE 1/4 of said Section 16;

Thence South 00°45'08" West 333.81 feet coincident with the East line of the NE 1/4 of said Section 16 to the point of beginning.

Said lands subject to all easements and restrictions of record.

That I have fully complied with the provisions of Chapter 236.34 of the Wisconsin Statutes and the Village of Harrison ordinances in surveying, dividing, and mapping the same. That this map is a correct representation of all the exterior boundaries of the land surveyed and the division thereof.

Dated this ____ day of _____, 2024.

Wisconsin Professional Land Surveyor: Thomas M. Kromm

This Certified Survey Map is all of tax parcel 33588.

This Certified Survey Map is fully contained within the property described in the following recorded instrument: Document #524175.

The property owner(s) of record is(are) Timothy Johnson.

All building setbacks and other land use requirements should be verified by the Village Zoning Department prior to any construction or other land use activity.
